Hi Don

I apologize for the delay, I've been out of the office. As I explained during our meeting last week. Banner vendors can apply up to a year in advance. The period requested starts on June 30th, 2017, therefore the soonest the vendor can apply is June 30th 2016, not before. For example, if they wish to apply today, the earliest installation allowed would have to start on June 14, 2017.

Hope this makes sense. Let me know how I can be of further assistance.

Good Morning Fabian...

After meeting in the Council Office 2 weeks ago and despite four or five emails / telephone messages, we have not heard anything from you. We had hoped you would have some communication for us, particularly after we received exactly the response from the pole banner permitting staff that you promised we would not? Should we assume that you cannot assist us as promised and pursue legislative changes through our Council Offices? Please advise. Thank you.

Good Afternoon Fabian...

It seems that this response is exactly the problem you said we would NOT have. How can this be corrected?

Dulce,

You need to wait until June 30, 2016 to submit the permit for the installation period starting on June 30, 2017 thru June 29, 2018.

Hi Fabian,

Don Duckworth informed us that you're aware of our issues when submitting permits for Melrose Ave BID. Below I have a screen shot of the issue. We currently have Approved Permits up to June 29, 2017. The system is not letting me submit any additional permits since the start date is exceeding one year. Please advised if your able to overwrite the system or if there's a different way I can submit permits.
